

Phlox divaricata

Blue Phlox

Also called wood phlox. A beautiful woodland species. Light purplish-blue, slightly fragrant flowers. Likes rich, moist, neutral soil and part-shade. When happy, will spread to form sizable clumps. May enter dormancy in hot, dry summers.

Suggested companions: trillium (*Trillium grandiflorum*), lady fern (*Athyrium filix-femina*), maidenhair fern (*Adiantum pedatum*), spicebush (*Lindera benzoin*), sugar maple (*Acer saccharum*), silver maple (*Acer saccharinum*)
